LETTER FROM THE DIRECTOR

Welcome to the first Edition of the Jersey Village Parks and Recreation Play Guide! As your Parks and Recreation Director, I would like to thank everyone who has enjoyed the parks and recreation system in our wonderful community over this past year! I can tell you that our staff truly enjoys seeing our community come together for events and programs. We feel these activities help create a sense of community and help make Jersey Village an enticing place to live, work, and play.

You may be wondering why we decided to put an activity guide together – good question. We felt that with our expanding programs, events, and activities the community could benefit from a snapshot of what is happening over the next six months. Our goal is to produce a bi-yearly activity guide that will arrive at your doorstep every February (spring-summer) and August (fall-winter).

Before you start looking at all the cool things going on in the city this year I wanted take a minute to introduce the Parks and Recreation team. The Parks and Recreation Department has many divisions that include parks, recreation, facility maintenance, golf course clubhouse and golf course maintenance operations; and each division has a manager that oversees their respective divisions. They each play a vital role for the department and city, and keep me abreast of all activities and issues taking place in their divisions.

Your Parks and Recreation Department has a lot of interesting things going on this year and we're excited to continue expanding our existing events and provide new activities for the community. One of the largest projects that will help catapult our department is the creation of our first Master Parks Plan. This plan will involve the community heavily by introducing public forums, community surveys, and multiple workshops. The plan will take about a year to complete, but will give us a road map of how to utilize our existing parks more efficiently and allow us to create programs and events tailored around the community input.

If you have any questions, comments, or suggestions related to our operations or activities, please don't hesitate to reach out to me or any of the parks and recreation management below. If you're out and about in the parks system stop and let the staff know if you see anything that needs to be addressed or just give them a friendly wave!

Sincerely,
Jason Alfaro
Parks and Recreation Director

2019 Parks and Recreation Projects

The parks system in Jersey Village is comprised of multiple pocket parks and a few neighborhood parks throughout the city. The city also oversees the maintenance of the retention pond located across the golf course along Jersey Meadow Drive. These parks are a major asset to our city as they allow people the opportunity to explore nature and get away from the hustle and bustle of daily life.

In addition, our parks system encompasses all medians and planter beds throughout the city and includes ground maintenance to all our facilities such as City Hall, Police and Fire Departments, and the water treatment plants. Your parks staff also takes care of all irrigation component throughout the city, repairs and updates playgrounds and parks amenities, and is working on a turf management plan for parks grounds.

Clark Henry Park, 7804 Equador St. - The restrooms at the pavilion were re-opened this year after extensive renovations. The lights inside the restrooms are now on a motion sensor that is activated once the main door is opened. The main doors to the restrooms unlock and lock at designated times (open at 6am and close at 9pm) alleviating staff from opening and closing them manually.

Clark Henry Pool, 7804 Equador St. - This year we replaced the iron fence that was around the perimeter of the pool. When we erected the new fence in the spring, it allowed us to make more room near the pavilion to allow for extra seating in the grass. We also invested in the replacement of old tables and chairs with the same make and look of the pool lounge chairs. The last major investment was a paint job to the buildings and gates.

Philippine Park, 15211 Philippine St. - The city was contacted by a local Boy Scout to help with repairing the gazebo for his Eagle Scout project. The project commenced in August and was completed by the end of September - the staining of the Gazebo was completed in December.

Dog Park, 8502a Rio Grande St. - The much anticipated dog park was given the green light for construction in August of 2019 and was completed with a ribbon cutting ceremony that took place at the beginning of September. Parks staff installed agility equipment, benches, and water fountains on both the large and small dog sides of the park. All exterior gates to the park are spring hinged to close behind you.

Jersey Meadow Golf Club, 8502 Rio Grande St. - Over the last couple of years there has been many changes and improvements to the golf course and clubhouse operations. We are transitioning into a Championship Golf Club facility and some of the changes include:

- A par 70 golf course from all tees.
- Changed the course routing to make the old #9 become the new #18, we also switched the old # 17 and # 18 to # 8 and #9 and old # 8 to #17.
- Changed all fairway mowing patterns, giving more definition from fairway to rough vice-versa.
- Promoting activities and events at the clubhouse for nongolfers. We have more residents utilizing the City owned facility on a regular basis.
- New 2020 EZGO golf carts with windshields, bag umbrellas, coolers, USB ports, and a GPS and Information screen on each cart.
- All sand bunkers have been redone with new drainage and new, high quality white sand.
- A newly constructed USGA 9000 sq. ft. practice putting green.
- Reconstructed a larger one level driving range tee and a new 5000 sq. ft. chipping green with a new sand bunker, making our practice area one of the best in NW Houston.
- Started a natural wood fence theme on the course down the right side of #10. The wood theme will continue around the rest of the course.
- Three new shade shelters with benches and water coolers at the practice areas.
- Transplanted over 50 trees the last three years as replacement trees, adding character to the holes.
- New "fun" tees (shorter distances) mostly for juniors, beginners and families.
- New tee signs on the course and around the clubhouse and practice areas.
