LETTER FROM THE DIRECTOR

Welcome to the second edition of the Jersey Village Parks and Recreation Play Guide! When the department drafted their First Edition Spring 2020 Play Guide they had no idea the challenges that we, as a community, were set to face shortly following its release. We were all challenged in many different ways and forced to adapt to a scenario we could have never imagined. This adversity has inspired us as a department to reflect and really focus on the importance of quality of life across all aspects of our residents' everyday lives. This reflection has provided us continuous motivation as we strive to provide exceptional experiences for all, that create a sense of community and help make Jersey Village an exciting place to live, work and play.

As your Parks and Recreation Director, I would like to thank each and every resident for their continued support and patience as we all work together as a community to learn and grow from each and every challenge thrown our way. I am blessed to be a part of such a close knit community and honored to work alongside such a strong team of dedicated professionals who are passionate about the experiences they work to provide our residents.

As mentioned in the previous Play Guide, our goal is to share all our spring and summer opportunities with our residents while providing inspiration for additional self-guided leisure, park exploration, creative imagination, and constructive feedback. We, as a department, have been working to branch out the opportunities we provide in an attempt to reach multiple interests brought forth from continuous feedback. We aim to serve all demographics and have begun to foster additional partnerships along the way.

We have some exciting programs and events mapped out for 2021 and are very excited to introduce them. In addition to the programs listed in this play guide, we plan to input additional opportunities as they come along so be sure to frequent our website for updates. We also have a few projects lined up for fiscal year 2021.

The Recreation division is in the process of refurbishing the pool deck and replacing the popular diving board amenity that will be ready for all by pool season! Our Parks division is in the process of bringing a brand new play structure to Clark Henry Park. They are also working with TxDOT on the revegetation project along Beltway 8. Our Golf division has been working on additional junior camps and creative golf opportunities.

Phase one of the gateway & wayfinding master plan has been complete and we are now focused on moving forward with phase two, pertaining to the large and small gateway monuments as well as entry monuments.

Finally, our Parks and Recreation Advisory Committee is working with the department to finalize the finishing touches of the Parks and Recreation Master Plan that can serve as a conceptual guide for the department for years to come. I would like to thank each and every member of the committee as well as the community that has contributed their ideas, feedback, open house attendance and survey responses to help form such an important document that council can use, as desired, as a road map for the department. As public servants, we as a department are always welcoming new ideas and feedback regarding Parks and Recreation ideas, events, or programs that our community would like to see and I encourage you to reach out to myself or any of our staff if you have any questions, concerns or suggestions as we continue to learn, grow and play as a team.

Sincerely
Robert Basford
Parks and Recreation Director
