On December 18, 2023, under Ordinance 2023-31, City Council adopted the updated Land Use Assumptions, a Capital Improvements Plan, and Impact Fees for water and wastewater facilities in accordance with Chapter 395 of the Texas Local Government Code.

Sec. 395.058(c)(4) of the Local Government Code requires that this Committee file semiannual reports with respect to the progress of the capital improvements plan and report to the City Council any perceived inequities in implementing the plan or imposing the impact fee.

Accordingly, this meeting is to review the status of the impact fee eligible projects and make sure that any expended impact fee dollars are being spent only on these projects. The impact fee eligible projects are as follow:

In making your review, maintenance and rehabilitation expenses are not impact fee eligible. Additionally, it is important to note that it is common that impact fees are collected but not always spent. This is acceptable in that these fees will be used in the future for impact fee eligible projects.

The Committee is to review the information presented and recommend whether another impact fee study is needed to increase our impact fees and/or include additional impact fee eligible projects on the CIP list.

An increase in impact fees or an addition of impact fee eligible projects to the CIP list can only be done by a professional engineer; therefore, should the Committee find that changes are needed; the recommendation will be to hire a consultant to re-evaluate the impact fee structure. Should the Committee find that no changes are needed, the recommendation will be that the current impact fee structure is sufficient to support the proposed Water and Wastewater Impact Fee Eligible Projects listed in the Capital Improvements Plan and it is not necessary to conduct an Impact Fee Study to reevaluate the City's impact fee structure.

In completing your review, the Committee will prepare the April 2024 Semiannual Progress Report outlining the findings of your review. To facilitate this process, a proposed report is included in the meeting packet. The final report will be submitted to Council on April 22, 2024.

The Committee engaged in discussion about the report.

With no further discussion on the matter, Committee Member Kopinitz moved to approve the Capital Improvements Advisory Committee April 2024 Semiannual Progress Report, recommending that the current impact fee structure is sufficient to support the proposed Water and Wastewater Impact Fees Eligible Projects listed in the Capital Improvements Plan and it is NOT necessary that the City hire a consultant to conduct an Impact Fee Study to reevaluate the City's impact fee structure. Committee Member Henao seconded the motion. The vote follows:

Ayes: Commissioners Members Henao, Mergel, Mena, Lock, and Kopinitz
Chairman Faircloth.

Nays: None

The motion carried.

Upon passage of this motion, the Semiannual Progress Report was signed for presentation to Council. A copy of the April 2024 Semiannual Progress Report is attached to and made a part of these minutes as Exhibit "A."

E. Adjourn

CAPITAL IMPROVEMENTS ADVISORY COMMITTEE
NOVEMBER SEMIANNUAL PROGRESS REPORT**

The Capital Improvements Advisory Committee has met in order to review current land use assumptions, capital improvements plan and impact fees imposed, in accordance with Chapter 395 of the Texas Local Government Code.

On December 18, 2023, under Ordinance 2023-31, City Council adopted the updated Land Use Assumptions, a Capital Improvements Plan, and Impact Fees for water and wastewater facilities in accordance with Chapter 395 of the Texas Local Government Code.

Progress: During the last six months of FY 2023-2024, one permit was issued as shown in the Project Payment Report attached hereto and made a part hereof as Exhibit A.

After duly considering all the information before it, the Capital Improvements Advisory Committee recommends to Council that:

___ The current impact fee structure is sufficient to support the proposed Water and Wastewater Impact Fees Eligible Projects listed in the Capital Improvements Plan and it is not necessary to conduct and Impact Fee Study to reevaluate the City's impact fee structure at this time.

___ The current impact fee structure is not sufficient to support the proposed Water and Wastewater Impact Fees Eligible Projects listed in the Capital Improvements Plan and it is necessary that the City hire a consultant to conduct an Impact Fee Study to reevaluate the City's impact fee structure. The budget for this effort is already approved.

Signed and approved this the 14th day of October 2024.
